

BOHO UNPLUGGED IN A TECH-FILLED WORLD

By Kali Steele
Rendering 2317
Tiny Home Project 2

CONCEPT STATEMENT

- In a world where everything is data-filled and technical, Mark and Sara want a space that is unpredictable and has a mixture of textures, colors, and patterns.
- Mark and Sara stare at computer screens all day. When they come home, they want to unplug and unwind by enjoying nature around them, and a naturistic tiny home.
- Bringing their sense of outdoor adventure inside, this tiny home will incorporate storage for their hiking and biking equipment in creative and artistic ways.
- The tiny house will feature their love of cooking and music through bright features, staying true to the boho and “unplugged” look.

CUSTOM COLOR PALETTE

To be used throughout the home in accent colors, accessories, and as a basis for all decor and finishes:
